

Sexual Health Quarters

Mariana Galrao, Public Health Physician

Luisa Goodie, Health Promotion Officer

Acknowledgement

Sexual Health Quarters recognises Aboriginal and Torres Strait Islander people's resilience, strength and deep spiritual connection to land, waters, and community as Australia's First People and Traditional Custodians. We pay our respects to them and their cultures.

We acknowledge the Whadjuk Noongar people as the Traditional Custodians of the land on which our head office is located. We recognise their positive contribution to the sexual health and relationship wellbeing of community and offer our respects to Elders past, to those guiding us today and to those shaping the leaders of the future.

Unplanned Pregnancy Options

Three options

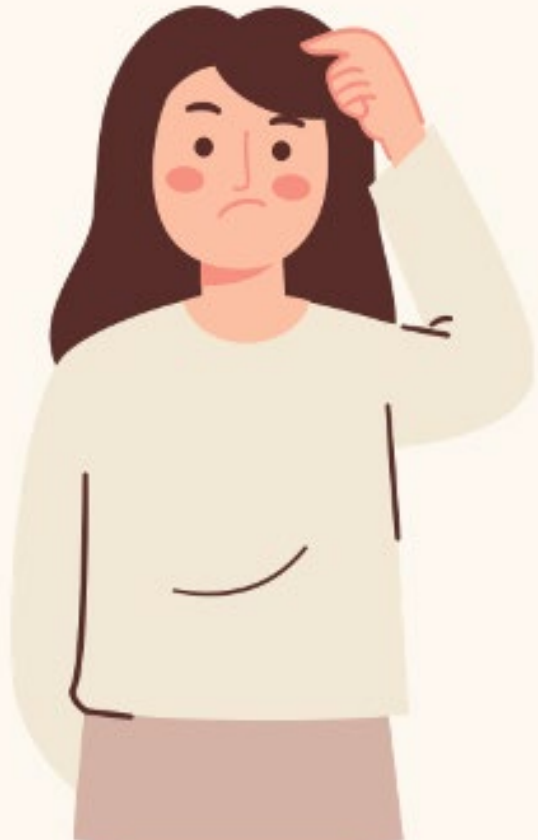

1. Keep pregnancy and become a parent
2. Keep pregnancy and give baby for adoption
3. Terminate pregnancy

Significant barriers removed

- ✓ The need to see at least 2 doctors for every request
- ✓ The need to see a doctor
- ✓ The need to have parental consent or having to go to Children's Court
- ✓ The need to travel interstate for abortions >19+6
- ✓ The need for pharmacists to do mandatory training
- ✓ The allowance of conscientious objectors of purposely obstructing access to abortion, humiliating patients and charging them for not helping them

Several barriers still remain...

Inequitable cost of abortion in WA

Lack of visibility of abortion providers in WA

Confusion around legislation

1800

Aims and Outcomes

Audio Feedback

“The lady who answered the phone, who answered my phone call she was very helpful, she gave me what I needed, she wasn’t...you know, she didn’t make me feel bad or... feel like I was calling for something I shouldn’t be calling about... I appreciate it. I spent a few hours looking for what I called for and it was a nice conversation. Thank you.”
