Traffic and parking changes in front of Armadale Hospital

From November 2026, there are construction works and changes to parking outside the main entrance to Armadale Hospital.

The changes will support construction of the Cook Government's new Armadale Mental Health Emergency Centre, which will provide short-stay inpatient beds for adults experiencing mental health concerns or psychosocial crisis. Patients will be able to receive observation, assessment treatment in a dedicated therapeutic environment for up to 72 hours.

The changes are also necessary to ensure Priority 1 Ambulances are not delayed due to congestion.

What's happening?

For patients and carers attending the hospital during construction, the key changes are:

- **Traffic routes** within the main entrance car park **will be modified.**
- The **Allied Health and Rehabilitation drive-through canopy** will be closed to vehicles and drop-offs. Please use the main entrance instead.
- There will be **fewer ACROD, 15-minute bays and loading bays** in the main entrance car park. However, the main entrance, the Outpatient Services entrance and the Mental Health entrance will always remain open for 5-minute stopping for patient drop-offs/pick-ups.
- **Transperth bus services will no longer enter the hospital parking area.** Instead they will stop 150 metres away on Albany Highway.

What do I need to do?

We encourage you to arrive earlier for your appointments and to park off Ecko Road if possible. Please pay attention to signage and follow the directions given for driving, parking and walking as per the map overleaf.

We want to prioritise the area outside the hospital entrances for those with greatest need such as emergency and patient transport vehicles, ACROD vehicles and patients/carers with limited mobility.

Some patients may be eligible for transport assistance. Please speak with your health care provider regarding the options that may be available to you.

Why is this happening?

This project is part of the Cook Government's commitment to increasing access to mental health care and will reduce pressure on the Emergency Department by providing eight beds for patients with acute mental health conditions.

Extensive planning is underway to minimise the impact on hospital users and we do apologise for any inconvenience caused.

Whom can I contact?

We thank you for your patience and understanding during the construction period. Our hospital staff and volunteers continue to be available to assist.
